MINOR IN

# HIP-HOP CULTURES

One of the best ways to examine and understand contemporary American and international society, culture and identity is through the study of hip-hop. The minor in Hip-Hop Cultures introduces students to the main themes represented in hip-hop: appropriation and defense of spaces, mixing of different cultures, migrations, multilingualism, race, class, gender, religions, sexuality, nationality, politics and the economy, and the search for identity.

The University of Arizona Africana Studies Program offers an interdisciplinary major, a minor in hip-hop cultures, and exciting internships and study abroad opportunities. Our faculty have diverse academic backgrounds and learning here is dynamic and interactive. We welcome students from all backgrounds to join us!
